ST. KATHARINE'S C.E. (V.A.) PRIMARY SCHOOL

Introduction

At St Katharine's Primary School, we believe in the importance of inclusion, equality and the best possible provision for all children. We strive to ensure that these values are at the heart of our SEND practices.

We will always involve parents and children in key decisions, as well as planning and reviewing progress.

We know that the earlier we identify SEND and provide support, the more successful our children will be.

We are committed to providing expert support and resources for children with SEND to fulfil their individual potential.

Our starting point is to guarantee a whole-school approach to providing for the needs of children with SEND. We make sure that all staff have the knowledge and skills to support all children, including those with SEND, throughout our School.

Ethos

- All children and staff have rights and responsibilities, which ensure the school is a safe and calm environment; we work with each other showing **grace**, gratitude and generosity, an attitude that values the contributions and efforts of all.
- All children and staff should treat each other with **integrity**, making informed choices, and being prepared to demonstrate humility and forgiveness.
- Good behaviour supports learning and achievement; we have high **aspirations** for our children and believe they should be able to use their talents to play a part in school life.

Legislation

This policy and information report is based on the statutory Special Educational Needs and Disability (SEND) Code of Practice and the following legislation:

- Part 3 of the Children and Families Act 2014, which sets out schools' responsibilities for children with SEN and disabilities
- The Special Educational Needs and Disability Regulations 2014, which set out schools' responsibilities for education, health and care (EHC) plans, SEN co-ordinators (SENCOs) and the SEN information report

Definitions

At St Katharine's we use the four broad categories of SEND when planning and delivering interventions for SEND children. Cognition and Learning, Communication and Interaction, Social, Emotional and Mental Health Difficulties, and Sensory or Physical needs.

According to the Children and Families Act 2014, a child has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for them.

They have a learning difficulty or disability if they have:

- A significantly greater difficulty in learning than the majority of others of the same age, or
- A disability which prevents or hinders them from making use of facilities of a kind generally provided for others of the same age in mainstream schools

Special educational provision is educational provision that is additional to, or different from, that made generally for other children of the same age by mainstream schools.

Children are not regarded as having a learning difficulty based solely on attendance, English as an additional language, receiving pupil premium, being 'looked after', or having a parent in the Armed Forces.

At St Katharine's we believe that disruptive or withdrawn behaviours do not necessarily mean that a child has SEND and we will investigate any potential underlying causes of the behaviour. Additionally, slow progress and low attainment do not necessarily mean that a child has SEND. However, they may be an indicator of a range of learning difficulties or disabilities. Similarly, we recognise that some learning difficulties and disabilities occur across the whole range of cognitive ability.

ST. KATHARINE'S C.E. (V.A.) PRIMARY SCHOOL

- Assess: Use diagnostic and baseline tests, as well as professional judgement, and child and parent views, as a means of identifying any learning difficulties. Regular progress meetings will be used to monitor progress against expectations, their peers and national data.
- Plan: Involve parents in developing a partnership approach to the child's learning and agreeing outcomes and support.
- Do: Implement interventions and support
- Review: consider progress towards outcomes and targets after the agreed time to inform future plans.
- Repeat this cycle continually, writing Learning Plans 3 times per year
- Teachers with concerns about children. Teachers follow a 6 week monitoring and intervention programme (and have informal conversations with the SENCO / Inclusion Leader) before formally referring the child to the SENCO for consideration for SEND support.
- Decisions to progress to an EHCP request are made by the SENCo/Inclusion Leader in conjunction with parents, class teachers and external agency experts (most notably the Educational Psychologist.) It would not be expected that there would be a need for a statutory assessment unless the child has given significant cause for concern.
- Decisions to remove a child from SEND support are made by the SENCo/Inclusion Leader in conjunction with parents, and the class teacher after careful consideration of attainment, and progress towards desired outcomes. Names are kept on the SEND register with 'SEND removed' as the status, for future reference.
